

Join our team as

BIOLOGIST (m/f/d)

Part-time for 18 months in Bremen, Germany.

CAMSENS GmbH is a B2B start-up company that develops measurement system solutions for the control and monitoring of products and environments. We provide automated devices for the fast and complete analysis of airborne particles, including recognition of different types of particles, such as spores.

KEY RESPONSIBILITIES

- Microscopical analysis of airborne particle samples
- Identification of spores and other microbiological particles
- Evaluation and quality management of software results
- Development of our airborne particle devices regarding biological aspects
- Preparation of reports, presentations, and funding applications

YOUR QUALIFICATION

- Successful completion of Master's degree in biology or related
- Experience with microscope and microbiological analysis is required
- Experience with the determination of the total number of spores is very desired
- Excellent interpersonal skills and able to communicate effectively
- Strong commercial, presentation and negotiation skills
- Highly pro-active, committed and independent
- Entrepreneurial skills and strong motivation to work in a start-up
- Fluency in both German and English is essential
